SUMMARY

Software Developer with hands-on experience in building scalable and responsive web applications using **HTML, CSS, JavaScript**, and the **MERN stack (React, Node.js, Express, MongoDB)**. Currently upgrading skills in **Python**, focusing on core programming concepts, problem-solving, and backend fundamentals to expand technical expertise. Strong understanding of modern web technologies, clean coding practices, and delivering high-quality solutions within defined timelines.

SKILLS

Programming Languages — Java | C# | JavaScript | HTML5, CSS3 | Python (Actively Learning),
Frameworks & Libraries — ASP.NET | MVC | Bootstrap | React.js, **Databases** — SQL Server | MongoDB, **Tools** — MS Visual Studio | VS Code | Git | GitHub, **Soft Skills** — Collaboration | Communication | Problem-Solving | Continuous Learning

EXPERIENCE

Wainfo Technologies, *Software Developer Intern* 09/2025 – Present | Aurangabad

- Developed and maintained full-stack web applications using ASP.NET, handling backend logic, database integration, and server-side functionality.
- Transitioned to the MERN stack based on project requirements to leverage modern technologies for improved performance and faster development.
- Designed and implemented responsive, user-friendly interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Optimized application performance, security, and reliability through debugging, best coding practices, and efficient error handling.

PROJECTS

Academy of Information Technologies Website [🔗](#), *Live Demo*

- Developed a student portal featuring secure login, attendance tracking, and result display.
- Implemented backend functionality using ASP.NET Web Forms, C#, and SQL Server.
- Ensured smooth navigation and accessibility across all devices.

Tech Stack: Frontend: HTML, CSS, JavaScript, Bootstrap Backend: ASP.NET Web Forms, C# Database: SQL Server

Genuine Hospital - Modern Healthcare Website [🔗](#), *Live Demo*

- Built a responsive hospital website with appointment booking and doctor profiles.
- Designed a clean and intuitive UI for seamless navigation across devices.
- Implemented interactive components to enhance user engagement.

Tech Stack: HTML, CSS, JavaScript, Bootstrap

LINKNETRA IT SYSTEMS [🔗](#), *Live Demo*

- Developed a platform for managing IT systems and workflows.
- Implemented task tracking, user management, and progress monitoring features.
- Built dashboards for reporting and performance insights with secure authentication.

Tech Stack: HTML, CSS, JavaScript, Bootstrap

ALMANNAN DECOR - Interior & Luxury Design *🔗, Live Demo*

- Developed a professional website showcasing services, portfolio, and contact details.
- Added interactive elements and smooth animations for better user experience.
- Ensured responsive design and accessibility across devices.

Tech Stack: HTML, CSS, JavaScript, Bootstrap

Smart Restaurant Management System

- Currently developing a digital restaurant platform for menu browsing, order placement, and payment processing.
- Implementing real-time order management connecting customers, kitchen staff, and admins.
- Integrating secure authentication, role-based access, and GPS-based delivery tracking.
- Focused on responsive UI and cross-device compatibility.

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), Tailwind CSS, JWT Authentication

ACHIEVEMENTS

Built and deployed multiple live full-stack projects including student dashboards, task managers, and listing platforms.

Active GitHub contributor with well-documented repositories.

Developed an AI Prompter Web Builder as a personal tool to automate layout generation.
